

Housatonic Releases Project Plan 365

Create, Modify and Share Microsoft Project MPP Files

The Housatonic Project Plan 365 works with, or in place of, Microsoft Project to create, modify and share MPP Files. At a fraction of the cost of MS Project and with support for a wider range of devices and platforms, Project Plan 365 is ultimate project planning and collaboration solution.

With Project Plan 365, project managers can:

- Maintain Work Breakdown Structure (WBS) and project schedules
- Assign resources (people and material) and calculate project costs
- Use duration, work and unit driven scheduling
- Open or save project plans stored in popular cloud locations/services
- Access all popular project views including Gantt, Calendar, Task Sheet, Team planner, Network Diagram, Resource Sheet, Resource Usage, Task Sheet, Task Usage
- Take advantage of advanced print capabilities (print selected tasks, print time scale/zoom plan)
- Export project plans in PDF, XML, Excel, PPT or PNG formats
- View, sort, filter, zoom, outline, insert, link, etc Project Tasks
- Generate project reports (who does what when, budget costs, over allocation, etc.)
- Compare two project plans and see what has changed and when
- Enable project collaboration features
- Publish project plans as read only or editable
- Share project plans online via email, live presentation or project link
- Send project notifications and alerts to Project Managers and Team Members
- Enable PPM features and generate enterprise project dashboards

Project Plan 365 reads files created in MS Project 2013 and all previous formats, and looks and feels like Microsoft Project, requiring no additional training. On touch screen devices, users can take advantage of pinch, stretch and drag technology.

Housatonic offers a range of licensing options for Project Plan 365 from a PP365 online version, free for the single user, to custom configurations and pricing addressing the needs of the largest enterprises.
